LIFE OF A GIRL

THE REVOLUTION

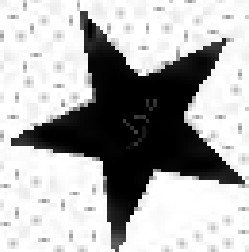

NEW WORLD RISING

meet the writer :p

who is rebel jess? thats the big question. I am a teenage girl mainly interested in being a punk & hippie. i love anything vintage and creative.

my story

I was born in eureka springs, arkansas. one of the worst places in the usa! i was born at home whilst my mom had the swine flu. i never grew up in a specific place.

ive been all over the world!

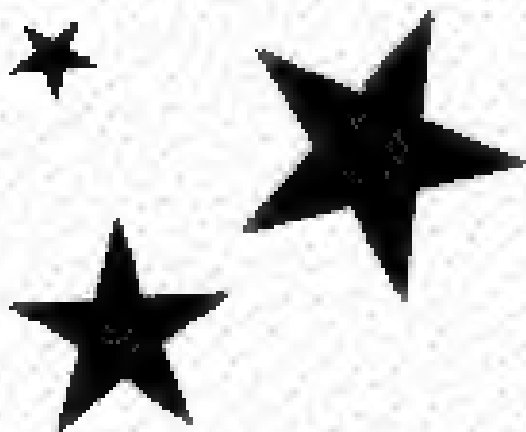

**God,  
save the  
Queen!**

# THE REVOLUTION AND OUR RIGHTS

by definition a revolution is a radical or complete change, when people speak up on something important like banning abortion or womens rights it makes a difference to stop the corrupt ways of the government. to distract us from whats going on they give us social media and video games. we (gen z) are not that blind and instead use it to speak up and spread truth. its called a #blackout where we stop supporting chain stores + companies and block celebrities. from doing so they lose millions of followers and lots of money. doing things like that makes a difference even if its small, instead support your local stores!

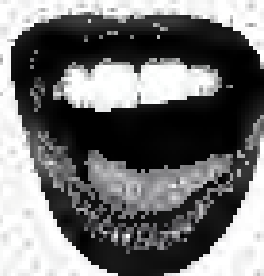

(next page!)

# THE **REVOLUTION** AND OUR RIGHTS

our rights:

1. we have freedom of speech
  2. we have freedom of religion
  3. we have freedom of the press and  
of assembly
- why should that change?

# **PUNK:** SUBCULTURE

the punk subculture includes a diverse and widely known array of ideologies, fashion, and other forms of expression, visual art, dance, literature, and film.

definition:

a style or movement characterized by bizzare clothing, hairstyles, makeup, etc. and the defiance of social norms of behavior

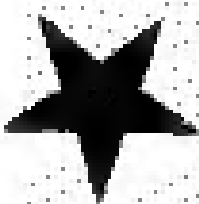

kids who enjoy punk are attacking society by being true to what they like and being different than societys norms, the arent just wrecking havoc on everything for no reason, its to make a change, and start a revolution for those who are hippie and punk!

## **ARE YOUR KIDS TURNING PUNK?**

"Punk Rock" is today's angry attack on society. What will you do if your kids turn punk?

in reality punk people are usually the gentlest, kindest, folks you'll ever know. they're like hippies, only they wear way more black

## riot grrrl

the riot grrrl movement believed in girls actively engaging in cultural production, creating their own music and fanzines rather than following existing materials. the emergence of the riot grrrl movement began in the early 1990's when a group of women in olympia, washington, held a meeting to discuss how to address sexism in the punk scene. the women decided they wanted to start a "girl riot" against a society they felt offered no validation of womens experiences. and thus the riot grrrl movement was born!

the bands associated with riot grrrl used their music to express feminist and anti-racist view points. bikini kill, bratmobile, and heavens to betsy created songs with extremely personal lyrics that dealt with topics such as rape, incest, and eating disorders.

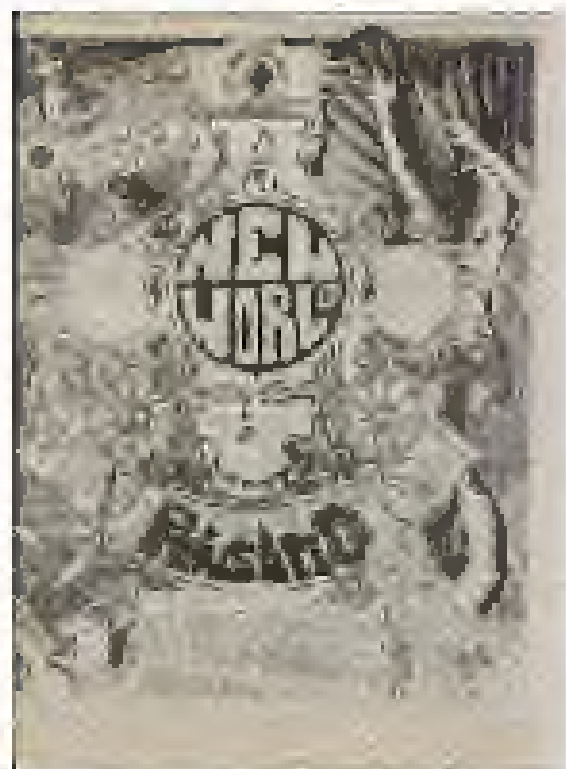

# NEW WORLD RISING

new world rising is a group of  
activists, hippies, revolutionaries, and  
what not. spreading peace love and  
truth

our roots stretch back into the early  
1980's when connecting with the  
dynamic punk, reggae, and hip hop  
scenes in providence, rhode island  
we organized many events, including  
may day, peace and freedom festivals,  
and demonstrations. we circulated  
many copies of the NWR paper  
magazines on dead tour all across the  
nation.
